

# Venice People Mover

From Wikipedia, the free encyclopedia

The **Venice People Mover** (Italian: *People Mover di Venezia*, Venetian: *People Mover de Venesia*) is a people mover-type public transit system in Venice, Italy opened in 2010. It connects Piazzale Roma with the city's Tronchetto island car parking facility, via a stop above the Marittima cruise terminal.

The transport system started operating on April 19, 2010.<sup>[3]</sup> The two vehicles of the system are pulled by a cable similar to a funicular. The whole 853-metre-long (0.5 mi) journey takes three minutes.
